Dear [redacted],

Final Appraisal Determination: axitinib for the treatment of advanced renal cell carcinoma after failure of prior systemic treatment

Thank you for your letter of 23 April and for giving us your views on our appeal.

After considering your opinion, we would like to withdraw the point relating to *Differences of views and failure to invite Professor Hawkins to the second appraisal meeting.* But we are most keen to maintain our argument in relation to the *Uncertainty concerning OS and ICERs* point. If it serves to meet your criteria more closely, we are prepared to change this point from Ground 1 to Ground 2. But we would very much prefer it if the Hearing could still be focussed on our argument rather than be concerned just with the procedural issues raised by other appellants.

Thank you very much for your help in this matter.

Yours Sincerely,

[redacted]
