7. Signs and symptoms (apnoea) associated with GOR

JC presented the evidence review association between GOR and apnoea, the GDG discussed the evidence and drafted their recommendations

Break

8. Surgery (fundoplication)

JC presented the draft review protocol for the clinical question on fundoplication. The group then discussed the protocol and finalised the content.

**4th Gastro-oesophageal reflux disease: recognition, diagnosis and management in children and young people Guideline Development Group meeting
Wednesday 31 July 2013 10am – 4.00pm at RCOG**

Present:

Ieuan Davis (ID)	GDG Chair
Dianne Jones (DJ)	Health visitor
Mark Tighe (MTe)	Paediatric Consultant
Tom McAnea (TM)	GP
Rebecca Harmston (RH)	Lay member
Bruce Jaffray (BJ)	Surgeon
Russell Peek (RP)	Consultant Paediatrician with an interest in neonatal Medicine
Karen Bythe (KB)	Nurse
Sarah Currell (SC)	Dietician
Charlie Fairhurst (CF)	Consultant in Paediatric Neurodisability

NCC staff:

Jiri Chard (JC)	Senior research fellow and team leader
Rosalind Lai (RL)	Information scientist
Nitara Prasannan (NP)	Research associate

In attendance:

Sarah Dundson (SD)	Guidelines Commissioning Manager, NICE
--------------------	--

Apologies

Eleanor Jeans (EJ)	Lay member
Stephen Murphy (SM)	Clinical co-director
David Bevan (DB)	Project manager
Mike Thomson (MTn)	Consultant gastroenterologist
John Martin (JM)	GP

9. Welcome, housekeeping, introductions and apologies

ID welcomed the group to the meeting.

10. Recap of day 1's evidence review

ID presented the drafted recommendations for the evidence review on signs and symptoms and risk factors made at the previous day's meeting.

11. Signs and symptoms (abdominal pain) associated with GOR

JC presented the evidence review association between GOR and abdominal pain, the GDG discussed the evidence and drafted their recommendations

12. Signs and symptoms (hoarseness) associated with GOR

JC presented the evidence review association between GOR and hoarseness, the GDG discussed the evidence and drafted their recommendations

Break

13. Signs and symptoms (feeding difficulties) associated with GOR

JC presented the evidence review association between GOR and a feeding difficulties; the GDG discussed the evidence and drafted their recommendations

14. Signs and symptoms (otitis media) associated with GOR

JC presented the evidence review association between GOR and otitis media, the GDG discussed the evidence and drafted their recommendations

15. Signs and symptoms (lower respiratory tract infection) associated with GOR

JC presented the evidence review association between GOR and a lower respiratory tract infection; the GDG discussed the evidence and drafted their recommendations

Lunch

16. Signs and symptoms (faltering growth) associated with GOR

JC presented the evidence review association between GOR and a faltering growth; the GDG discussed the evidence and drafted their recommendations

17. Signs and symptoms (chronic cough) associated with GOR

JC presented the evidence review association between GOR and chronic cough, the GDG discussed the evidence and drafted their recommendations

18. Signs and symptoms (dental erosion) associated with GOR

JC presented the evidence review association between GOR and dental erosion, the GDG discussed the evidence and drafted their recommendations

Break

19. Summary of signs and symptoms evidence reviews

The GDG discussed the draft recommendations made for signs and symptoms of GOR(D) and began to draft a treatment algorithm.

20. Any other business

There was no other business. ID thanked the participants for attending and closed the meeting.
