Notes

1. The chairman welcomed the group to the fourteenth meeting of this GDG. Apologies were received from Elisabetta Fenu (NCGC), Henrietta Mulnier, Stuart Smellie, Perdy van den Berg. The Chair asked all GDG members to declare any relevant conflicts of interest. All declared that they knew of no personal specific, personal non-specific, non-personal specific or non-personal non-specific interest in the development of this guideline. The register of previously declared interests was consulted prior to the meeting and there were no conflicts with the topics for discussion.
2. The minutes of the last meeting of this group were agreed as a true and accurate account of the meeting.
3. Linking evidence to recommendations sections for acute painful neuropathy, erectile

Notes

dysfunction and inpatient i.v. insulin regimens and dose adjustment devices were reviewed and agreed.

- 4 Clinical and cost effectiveness evidence was reviewed for identification and quantification of problematic hypoglycaemia. Recommendations were drafted.
- 5 Clinical and cost effectiveness evidence was reviewed for strategies for recovering hypoglycaemia awareness. Recommendations were drafted.
- 6 Stakeholder consultations for the lipids modification and chronic kidney disease guidelines are currently open. The type 1 diabetes guideline development group will formally respond to both of the consultations. Draft responses were discussed.
