

**Expert paper 5: Professor Catherine Law and Professor Helen Roberts,
Institute of Child Health, University College London**

**Title of study: A population-level evaluation of a family-based
community intervention for childhood overweight and obesity**

[Note from NICE: The first part of the written presentation closely followed the protocol for the study. The full expert paper will replace the link to the protocol below after the study has been published as an NIHR PHR monograph.]

The protocol for the study can be viewed at the following link:
