Equality impact assessment

Pancreatitis: Diagnosis and Management

The impact on equality has been assessed during guidance development according to the principles of the NICE equality policy.

2.0 Checking for updates and scope: after consultation (to be completed by the Developer and submitted with the revised scope)

2.1 Have any potential equality issues been identified during consultation, and, if so, what are they?

No equalities issues were identified during consultation.

2.2 Have any changes to the scope been made as a result of consultation to highlight potential equality issues?

There have been no changes to the scope which highlight potential equality issues.

2.3 Is the primary focus of the guideline a population with a specific disability-related communication need?

If so, is an alternative version of the 'information for the public' recommended?

If so, which alternative version is recommended?

The alternative versions available are:

- large font or audio versions for a population with sight loss
- British Sign Language videos for a population deaf from birth
- 'Easy read' versions for people with learning disabilities or cognitive impairment.

The guideline does not focus on any populations with specific disability related communication needs.
