TIME	TOPIC
10.00	<p><i>Introduction, welcome and meeting objectives</i></p> <ul style="list-style-type: none"> • The chairman introduced the GDG to the 4th GDG meeting and gave people's apologies to the meeting. • The chairman gave an overview of agenda for the day • The chairman ran through the minutes from the last meeting with the GDG. GDG considered the minutes a truthful account of the first meeting.
10.15	<p><i>Evidence reviews</i></p> <ul style="list-style-type: none"> • Ms Katrina Sparrow presented the evidence review on what is the clinical and cost effectiveness of tricyclics for children and young people under 19 years who have nocturnal enuresis • The chairman led on the agreement of evidence statements with the GDG • The chairman led on the development of draft recommendations, and of the evidence to recommendations section.
12.00	<p><i>Health visitor perspective on issues and services for under 5s</i></p> <ul style="list-style-type: none"> • Mrs. Anne Longton gave a presentation on the health visitor perspective on issues and services for under 5s. The chairman then led on the general discussion with the GDG.
12.30	<p><i>Clinical Questions and further searches required</i></p> <ul style="list-style-type: none"> • Ms Vanessa Nunes presented the further search details required for the completion of all the clinical questions for NE guideline.
13.30	<p><i>Evidence reviews (Revisions to previous evidence reviews and agreement of draft recommendations)</i></p> <ul style="list-style-type: none"> • Ms Katrina Sparrow presented the revisions made to the evidence review on the clinical and cost effectiveness of alarms for children and young people under 19 years who have nocturnal enuresis. • The chairman led on the development of draft recommendations, and the revisions made to the evidence to recommendations section. • Due to time constraints the GDG did not go through the revisions made to both the evidence review on the clinical and cost effectiveness of Desmopressin and Anticholinergics. The two evidence reviews are to be placed on Claromentis for GDG assessment. The project team are to go back to the evidence reviews on Desmopressin, Anticholinergics and Tricyclics and develop draft recommendations for the GDG to review both on Claromentis and for the next GDG meeting.
15.45	<p><i>Summary of next steps, meeting dates, and any other business</i></p>
