

# Endorsed resource – Pharmaceutical care plan

Implementation support

Published: 30 November 2016

[www.nice.org.uk](http://www.nice.org.uk)

The organisation [Provide](#) has produced a [pharmaceutical care plan](#) that supports relevant recommendations for safe and effective patient movement between settings in the NICE guidelines on [medicines optimisation](#), [patient experience](#) and [medicines adherence](#). It also supports the statements about shared decision making and patient preference in the NICE quality standards on [medicines optimisation](#) and [patient experience](#).

## Disclaimer

Endorsed resources are complementary information from sources outside of NICE. This resource has been developed by [Provide](#) and is not maintained by NICE. NICE has not made any judgement about the quality and usability of the resource. In the event of any issues or errors, please contact [Provide](#).
