4. No service user concerns were stated.
5. SJ updated the group on the work done to review the duration of untreated psychosis article discussed at the previous GDG.
6. The GDG were asked to review the NICE guideline recommendations and address the questions raised by NICE. TK explained that at this stage of the process new recommendations cannot be formulated, the essence of the meeting is to finalise them in time for public consultation.
7. A list of key recommendations was presented to the GDG to enable a discussion on which 10 recommendations should be prioritised.
8. TK thanked the GDG members for submitting the research recommendations as discussed in the last meeting. The GDG were asked to prioritise the top 5 -from the 8 which were submitted- to feature in the NICE guideline.
9. Expert advisors/ reviewers will be contacted during stakeholder consultation to peer review the guideline. The GDG were invited to offer names of experts who they feel would be in a good position to review 1 or 2 chapter of their specialised area, be it peer support, physical health, alternatives to admissions...etc. MM will send a list of these names to the GDG who will need to confirm which chapters we will ask the expert advisor to review. GDG members are welcome to send MM other suggested names.
