

SEARCH STRATEGIES FOR THE IDENTIFICATION OF HEALTH ECONOMIC EVIDENCE

Scoping searches

A broad preliminary search of the literature was undertaken in August 2011 to obtain an overview of the issues likely to be covered by the scope, and to help define key areas. Searches were limited to full and partial economic evaluations, and quality of life studies.

- NHS Economic Evaluation Database (NHS EED) [Cochrane Library]
- Excerpta Medica Database (Embase)
- HTA database (technology assessments)
- Medical Literature Analysis and Retrieval System Online (MEDLINE/MEDLINE In-Process)

Further information about this process can be found in The Guidelines Manual (NICE, 2012).

Systematic search

Each search was constructed using the groups of terms set out in Text Box 1. The full set of search terms is documented in sections 1 to 3.1. The selection of search terms was kept broad to maximise retrieval of evidence in a wide range of areas of interest to the GDG.

Text Box 1: Summary of systematic search strategies: Search strategy construction

| Summary of systematic search strategies for clinical evidence | | | | | |
|---|----------------|--|--|---|-------------------------|
| Section 1, focused searches | | | | | |
| Review area/s | Search type | Search construction | Study design searched | Databases searched | Date range searched |
| Case identification and assessment | Focused search | General medical databases: [(Population terms version two) AND (((general identification instrument/ diagnostic assessment terms) AND (sensitivity/specificity terms)) OR (named instruments)) AND (HE/QoL terms)] Topic specific databases: [(population terms)] | Full and partial economic evaluations, quality of life studies | General medical databases: Embase, Medline, PreMedline, PsycINFO Topic specific databases: HTA, NHS EED | 1998 to 20 January 2014 |
| Section 2, generic searches | | | | | |
| Review area/s | Search type | Search construction | Study design searched | Databases searched | Date range searched |

| | | | | | |
|--|----------------|--|--|--|-------------------------|
| Pharmacologic and medical interventions for acute episodes | Generic search | General medical databases: [(population terms version 1) AND (HE/QoL terms)] Topic specific databases: [(population terms)] | Full and partial economic evaluations, quality of life studies | General medical databases: Embase, Medline, PreMedline, PsycINFO Topic specific databases: HTA, NHS EED | 2005 to 20 January 2014 |
| Pharmacologic and medical interventions for long-term management | Generic search | General medical databases: [(population terms version 1) AND (HE/QoL terms)] Topic specific databases: [(population terms)] | Full and partial economic evaluations, quality of life studies | General medical databases: Embase, Medline, PreMedline, PsycINFO Topic specific databases: HTA, NHS EED | 2005 to 20 January 2014 |
| Psychosocial interventions for adults | Generic search | General medical databases: [(population terms version 1) AND (HE/QoL terms)] Topic specific databases: [(population terms)] | Full and partial economic evaluations, quality of life studies | General medical databases: Embase, Medline, PreMedline, PsycINFO Topic specific databases: HTA, NHS EED | 2005 to 20 January 2014 |

| | | | | | |
|-------------------------------|----------------|--|--|--|-------------------------|
| Management of physical health | Generic search | General medical databases: [(population terms version 1) AND (HE/QoL terms)] Topic specific databases: [(population terms)] | Full and partial economic evaluations, quality of life studies | General medical databases: Embase, Medline, PreMedline, PsycINFO Topic specific databases: HTA, NHS EED | 2005 to 20 January 2014 |
|-------------------------------|----------------|--|--|--|-------------------------|

Note: evidence resulting from generic searches mapped to all review areas

* HTA (Health Technology Assessment database), NHS EED (NHS Economic Evaluation database).

1 Population search terms - all databases

1.1 STEM - General medical databases

Embase, Medline, PreMEDLINE, PsycINFO - OVID SP

Version 1

- 1 exp bipolar disorder/ or mania/
- 2 1 use emez
- 3 exp bipolar disorder/
- 4 3 use mesz, prem
- 5 exp bipolar disorder/ or exp mania/
- 6 5 use psych

- 8 ((affective\$ or mood) adj (disorder\$ or disturbance\$ or dysfunction\$ or illness\$ or swing\$)).ti,ab,tm.
- 9 or/2,4,6-8

1.2 STEM - topic specific databases

HTA, CDSR, DARE, CENTRAL - Wiley

Version one

#1 mesh descriptor **bipolar disorder** explode all trees

((bipolar or "bi polar") near/5 (disorder* or depress*)) or

#2 ((cyclothymi* or rapid or ultradian) near/5 cycl*) or
hypomani* or mania* or manic* or "mixed episode*" or

rcbd):ti,ab,kw

#3 (#1 or #2)

Version two

#1 mesh descriptor **bipolar disorder** explode all trees

#2 mesh descriptor **mood disorders** this tree only

((bipolar or "bi polar") near/5 (disorder* or depress*)) or

#3 ((cyclothymi* or rapid or ultradian) near/5 cycl*) or
hypomani* or mania* or manic* or "mixed episode*" or
rcbd):ti,ab,kw

#4 ((affective* or mood) near/1 (disorder* or disturbance* or
illness* or swing*)),ti,ab.

#5 (#1 or #2 or #3 or #4)

2. Question specific search strategies - all databases

2.1 Case identification and assessment

Review questions:

RQ: For adults at risk of or suspected as having bipolar disorder, what identification instruments when compared to a gold standard diagnosis (based on DSM or ICD criteria) have adequate clinical utility (i.e. clinically useful with good sensitivity and specificity) and reliability?

RQ: For children (less than 13 years) and young people (13 to 18 years) at risk of or suspected of having bipolar disorder, what identification instruments when compared to a gold standard diagnosis (based on DSM or ICD criteria) have adequate clinical utility (i.e. clinically useful with good sensitivity and specificity) and reliability?

RQ: For people with possible bipolar disorder, what are the key components of, and the most effective structure for, diagnostic assessment?

What amendments, if any, need to be made for (i) particular cultural or minority ethnic groups, (ii) people of different genders, (iii) children and young people, (iv) older adults?
