Men with lower urinary tract symptoms

On 18 September 2007 the Department of Health formally requested the National Institute for Health and Clinical Excellence to prepare a clinical guideline as described in the box below.

Remit: To prepare a guideline on the assessment, investigation, management and onward referral of men with lower urinary tract symptoms (including male incontinence) within primary care.

Suggested working titles for NICE:

Full Title: Assessment, investigation, management and referral of men with lower urinary tract symptoms in primary care

Short Title: Lower urinary tract symptoms in men
