ImmunoCAP ISAC and Microtest for multiplex allergen testing in people with difficult to manage allergic disease: A systematic review and cost-effectiveness analysis

Page 109:

“However, if there was no reduction in OFC testing then the number of sIgE tests or SPTs per patient that needed replacing would have to be at least 39% or 28% for ImmunoCAP[®] ISAC and Microtest respectively to be cost saving.”

Should be changed into:

“However, if there was no reduction in sIgE testing then OFC testing would have to be reduced by at least 39% or 28% for ImmunoCAP[®] ISAC and Microtest respectively to be cost saving.”
