Equality impact assessment: Topic selection and scoping

SeQuent Please Neo balloon catheter for in-stent coronary restenosis

The impact on equality has been assessed during this evaluation according to the principles of the [NICE Equality scheme](#).

1. Have any potential equality issues been identified during the development of the topic briefing note or during selection, and, if so, what are they?

No potential equality issues

2. What is the preliminary view as to what extent these potential equality issues need addressing by the committee?

No issues

3. Has any change to the draft scope been agreed to highlight potential equality issues?

No

4. Have any additional stakeholders related to potential equality issues been identified during the scoping process, and, if so, have changes to the stakeholder list been made?

No
