Equality impact assessment – Guidance development

**STA Pembrolizumab for adjuvant treatment of resected
non-small-cell lung cancer [ID3907]**

The impact on equality has been assessed during this appraisal according to the principles of the NICE equality scheme.

Final draft guidance

1. Have any additional potential equality issues been raised during the consultation, and, if so, how has the committee addressed these?

No equality issues were identified during consultation.

2. If the recommendations have changed after consultation, are there any recommendations that make it more difficult in practice for a specific group to access the technology compared with other groups? If so, what are the barriers to, or difficulties with, access for the specific group?

No.

3. If the recommendations have changed after consultation, is there potential for the recommendations to have an adverse impact on people with disabilities because of something that is a consequence of the disability?

No.

4. If the recommendations have changed after consultation, are there any recommendations or explanations that the committee could make to remove or alleviate barriers to, or difficulties with, access identified in questions 2 and 3, or otherwise fulfil NICE's obligations to promote equality?

No.

5. Have the committee's considerations of equality issues been described in the final appraisal determination, and, if so, where?

Yes, see section 3.19 of the final draft guidance.
