Equality impact assessment – Scoping

Elacestrant for treating oestrogen receptor-positive HER2-negative advanced breast cancer with an ESR1 mutation after at least 1 endocrine treatment [ID6225]

The impact on equality has been assessed during this evaluation according to the principles of the NICE Equality scheme.

1. Have any potential equality issues been identified during the scoping process (draft scope consultation and scoping workshop discussion), and, if so, what are they?

No potential equality issues have been identified.

2. What is the preliminary view as to what extent these potential equality issues need addressing by the Committee?

Not relevant.

3. Has any change to the draft scope been agreed to highlight potential equality issues?

Not relevant.

4. Have any additional stakeholders related to potential equality issues been identified during the scoping process, and, if so, have changes to the stakeholder list been made?

No.
