

IPG577 Sacrocolpopexy with hysterectomy using mesh to repair uterine prolapse

SNOMED CT provides clinical terms for entry into the patient record to record clinical information relevant to that encounter; the mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

Procedure and device:

SNOMED CT preferred term (concept ID)

Abdominal hysterectomy with sacrocolpopexy using mesh (1076221000000107)

OPCS-4 code(s):

An OPCS-4 code from one of the following categories is assigned:

Q07.- Abdominal excision of uterus

Or

Q08.- Vaginal excision of uterus

Plus

Y75.2 Laparoscopic approach to abdominal cavity NEC (*if performed laparoscopically*)

Plus

P24.2 Sacrocolpopexy

Plus

Y75.2 Laparoscopic approach to abdominal cavity NEC (*if performed laparoscopically*)

Plus

Y28.4 Insertion of mesh into organ NOC

Or

Y28.1 Insertion of synthetic mesh into organ NOC

Or

Y28.2 Insertion of biological mesh into organ NOC

Or

Y28.3 Insertion of composite mesh into organ NOC

Diagnosis or health condition:

SNOMED CT preferred term (concept ID)

Uterine prolapse (24976005)

ICD-10 code(s):

N81.4 Uterovaginal prolapse, unspecified

N81.2 Incomplete uterovaginal prolapse

N81.3 Complete uterovaginal prolapse

Q51.8 Other congenital malformations of uterus and cervix

Clinical coding recommendations for NICE guidance

For each published interventional procedure and medical technologies guidance, we work with NHS Digital to provide relevant clinical coding information.

SNOMED CT provides clinical terms for entry into the patient record to store clinical information relevant to that encounter.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

NICE and NHS Digital Information Representation Services work collaboratively to ensure the most appropriate SNOMED CT, OPCS-4 and ICD codes are provided.

NHS Digital is the national release centre for the UK edition of SNOMED CT, ICD and OPCS-4. Further SNOMED CT information including licensing, see [here](#). Further Classifications information, see [here](#).
