IP1822 Coronary sinus stent insertion for refractory angina

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

Procedure:

OPCS-4 code(s):

K57.8 Other specified other therapeutic transluminal operations on heart

Y14.8 Other specified placement of stent in organ NOC

Y53.- Approach to organ under image control or **Y68.- Other approach to organ under image control**

O43.2 Coronary sinus

Note: Four-character code assignment will be based on the type of imaging used. Multiple codes from **Y53** and **Y68** may be assigned in instances where different types of image control are used together.

Diagnosis or health condition:

ICD-10 code(s):

I20.- Angina pectoris

Clinical coding recommendations for NICE guidance

For each published interventional procedure guidance, we work with NHS Digital to provide relevant clinical coding information.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

NICE and NHS Digital Information Representation Services work collaboratively to ensure the most appropriate OPCS-4 and ICD-10 codes are provided.

NHS Digital is the national release centre for the UK edition of ICD-10 and OPCS-4. Further Classifications information, see here.
