## IP1925 - Minimally invasive fusionless deformity correction surgery to treat adolescent idiopathic scoliosis

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

**Procedure:**

**OPCS-4 code(s):**

**V41.5 Posterior attachment of spinal growing system**

**V55.- Levels of spine**

**Diagnosis or health condition:**

**ICD-10 code(s):**

**M41.1 Juvenile idiopathic scoliosis**

**Note:** An additional 5<sup>th</sup> character code can be assigned to **M41.1** to indicate the specific site of involvement.

## **Clinical coding recommendations for NICE guidance**

For each published interventional procedure guidance, we work with NHS Digital to provide relevant clinical coding information.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

NICE and NHS Digital Information Representation Services work collaboratively to ensure the most appropriate OPCS-4 and ICD-10 codes are provided.

NHS Digital is the national release centre for the UK edition of ICD-10 and OPCS-4. Further Classifications information, see [here](#).
