

## **IP692/2 - Direct skeletal fixation of limb or digit prostheses using intraosseous transcutaneous implants**

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

### **Procedure:**

#### **OPCS-4 code(s):**

**X05.- Implantation of prosthesis for limb**

Plus

**Y70.3 First stage of staged operations NOC** (if the procedure is staged)

Or

**Y71.1 Subsequent stage of staged operations NOC** (if the procedure is staged)

Plus

**Site and laterality codes**

## **Clinical coding recommendations for NICE guidance**

For each published interventional procedure guidance, we work with NHS England to provide relevant clinical coding information.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

NICE and NHS England Terminology and Classifications Delivery Service work collaboratively to ensure the most appropriate OPCS-4 and ICD-10 codes are provided.

NHS England is the national release centre for the UK edition of ICD-10 and OPCS-4. Further Classifications information, see [here](#).
