
IPG008 - Radiofrequency ablation of varicose veins

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

Procedure:

OPCS-4 code(s):

L88.2 Radiofrequency ablation of varicose vein of leg

Z98 Other veins of lower limb

Z94.- Laterality of operation

Diagnosis or health condition:

ICD-10 code(s)

I83.- Varicose veins of lower extremities

O22.0 Varicose veins of lower extremity in pregnancy

O87.8 Other venous complications in the puerperium

Clinical coding recommendations for NICE guidance

For each published interventional procedure guidance, we work with NHS England to provide relevant clinical coding information.

The mandated classifications (OPCS-4 or ICD-10) provide a method to collect and aggregate data to allow accurate and consistent data analysis.

NICE and NHS England Terminology and Classifications Delivery Service work collaboratively to ensure the most appropriate OPCS-4 and ICD-10 codes are provided.

NHS England is the national release centre for the UK edition of ICD-10 and OPCS-4. Further Classifications information, see [here](#).
