PROGRAMME**

Equality impact assessment – Guidance development

**HeartFlow FFR_{CT} for estimating fractional flow reserve
from coronary CT angiography**

The impact on equality has been assessed during this evaluation according to the principles of the NICE Equality scheme.

Consultation

1. Have the potential equality issues identified during the scoping process been addressed by the Committee, and, if so, how?

No equality issues were identified during scoping

2. Have any other potential equality issues been highlighted in the company's submission, or patient organisation questionnaires, and, if so, how has the Committee addressed these?
--

No equality issues were identified in the company's submissions or by patient organisations

3. Have any other potential equality issues been identified by the Committee and, if so, how has the Committee addressed these?

No equality issues were identified by the Committee

4. Do the preliminary recommendations make it more difficult in practice for a specific group to access the technology compared

with other groups? If so, what are the barriers to or difficulties with access for the specific group?
No

5. Is there potential for the preliminary recommendations to have an adverse impact on people with disabilities because of something that is a consequence of the disability?
No

6. Are there any recommendations or explanations that the Committee could make to remove or alleviate barriers to , or difficulties with access identified in questions 4 or 5, or otherwise fulfil NICE's obligations to promote equality?
N/A

7. Have the Committee's considerations of equality issues been described in the medical technology consultation document, and, if so, where?
N/A – There were no equality issues that required consideration
