

SEARCH STRATEGIES FOR THE IDENTIFICATION OF CLINICAL STUDIES

Each search was constructed using the groups of terms set out in Text Box 1.

Text Box 1: Summary of systematic search strategies

Mental health service users				
Review question and search construction		Study design limit	Databases searched	Dates searched
1.1	Does race/ethnicity of a service user or staff member make a difference to how they are treated when they are involved in a violent and aggressive behaviour incident in health and community care settings? Search construction: [population search terms AND qualitative SR study design terms]	Qualitative SR	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
		Also supplemented with evidence retrieved from SR searches for all guideline parts		
1.2	Do service users perceive that the race/ethnicity of a service user or staff member makes a difference to how they are treated when they are involved in a violent and aggressive behaviour incident in health and community care settings? Search construction: [population search terms AND qualitative SR study design terms]	Qualitative SR	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
		Also supplemented with evidence retrieved from SR searches for all guideline parts		

1.3	Does gender of a service user or staff member make a difference to how they are treated when they are involved in a violent and aggressive behaviour incident in health and community care settings? Search construction: [population search terms AND qualitative SR study design terms]	Qualitative SR	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
		Also supplemented with evidence retrieved from SR searches for all guideline parts		
1.4	Do service users perceive that the gender of a service user or staff member makes a difference to how they are treated when they are involved in a violent and aggressive behaviour incident in health and community care settings? Search construction: [population search terms AND qualitative SR study design terms]	Qualitative SR	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
		Also supplemented with evidence retrieved from SR searches for all guideline parts		
1.5	What are the service users' perspectives of the considerations needed for the short-term management of violent and aggressive behaviour in health and community care settings where the service user has physical disabilities? Search construction: [population search terms AND qualitative SR study design terms]	Qualitative SR	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
		Also supplemented with evidence retrieved from SR searches for all guideline parts		

Carers of mental health service users				
Review question and search construction		Study design limit	Databases searched	Dates searched
1.6	<p>Do carers perceive that the race/ethnicity of a service user or staff member makes a difference to how they are treated when they are involved in a violent and aggressive behaviour incident in health and community care settings?</p> <p>Search construction: [population search terms AND qualitative SR study design terms]</p>	Qualitative SR	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
		Also supplemented with evidence retrieved from SR searches for all guideline parts		
1.7	<p>Do carers perceive that the gender of a service user or staff member makes a difference to how they are treated when they are involved in a violent and aggressive behaviour incident in health and community care settings?</p> <p>Search construction: [population search terms AND qualitative SR study design terms]</p>	Qualitative SR	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
		Also supplemented with evidence retrieved from SR searches for all guideline parts		
1.8	<p>What are the carers of mental health service users perspectives of the considerations needed for the short-term management of violent and aggressive behaviour in health and community care settings where the service user has physical disabilities?</p>	Qualitative SR	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014

	Search construction: [population search terms AND qualitative SR study design terms]			
		Also supplemented with evidence retrieved from SR searches for all guideline parts		

Staff				
Review question and search construction		Study design limit	Databases searched	Dates searched
1.9	Do staff perceive that the race/ethnicity of a service user or staff member makes a difference to how they are treated when they are involved in a violent and aggressive behaviour incident in health and community care settings? Search construction: [population search terms AND qualitative SR study design terms]	Qualitative SR	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
		Also supplemented with evidence retrieved from SR searches for all guideline parts		
1.10	Do service users perceive that the gender of a service user or staff member makes a difference to how they are treated when they are involved in a violent and aggressive Search construction: [population search terms AND qualitative SR study design terms]	Qualitative SR	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
		Also supplemented with evidence retrieved from SR searches for all guideline parts		
1.11	What are the staff perspectives of the considerations needed	Qualitative SR	CINAHL, Embase,	2003 to

	for the short-term management of violent and aggressive behaviour in health and community care settings where the service user has physical disabilities? Search construction: [population search terms AND qualitative SR study design terms]		Medline, PreMedline, PsycINFO	04.08.2014
		Also supplemented with evidence retrieved from SR searches for all guideline parts		

Risk factors and prediction				
Review question and search construction		Study design limit	Databases searched	Dates searched
Pre-event				
2.1	What are the risk factors and antecedents (including staff characteristics) for violent and aggressive behaviour by mental health service users in health and community care settings?	Prospective cohort	Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
2.1.1	Do the identified risk factors have good predictive validity for future violent and aggressive behaviour by mental health service users in health and community care settings? Search construction: [population search terms AND risk factor terms AND prospective cohort study design terms]			
2.2	What factors do service users and staff report as increasing the risk of violent and aggressive behaviour by mental health	Qualitative SR	Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014

	service users in health and community care settings? Search construction: [population search terms AND qualitative SR study design terms]			
2.3	Which instruments most reliably predict violent and aggressive behaviour by mental health service users in health and community care settings in the short-term?	Diagnostic/RCT	Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
2.3.1	Do the identified instruments have good predictive validity for future violent and aggressive behaviour by mental health service users in health and community care settings? Search construction: [population search terms AND instrument terms AND diagnostic accuracy terms]			
2.4	What is the best the approach for anticipating violent and aggressive behaviour by mental health service users in health and community care settings?	<i>No search – integrated findings from RQ2.1-2.3, and sought GDG expert opinion</i>		

Prevention interventions				
Review question and search construction		Study design limit	Databases searched	Dates searched
Pre-event				
2.5	Do observation techniques, used to pre-empt or prevent violent and aggressive behaviour by mental health service users in an inpatient setting, produce benefits that outweigh possible harms when compared to an alternative approach? Search construction: [population search terms AND observation technique terms AND SR/RCT/Cohort study design	SR, RCT, Cohort	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014

	terms]			
2.6	<p>Do modifications to the environment (physical and social) of health and community care settings, used to reduce the risks of violent and aggressive behaviour by mental health service users, produce benefits that outweigh possible harms when compared to an alternative approach?</p> <p>Search construction: [population search terms AND environment terms AND SR/RCT/Cohort study design terms]</p>	SR, RCT, Cohort	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
2.7	<p>Do management strategies (including staffing levels and IT systems), used to reduce the risks of violent and aggressive behaviour by mental health service users, produce benefits that outweigh possible harms when compared to an alternative approach?</p> <p>Search construction: [population search terms AND management strategy AND SR/RCT/Cohort study design terms]</p>	SR, RCT, Cohort	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
2.8	<p>Do training programmes for the use of interventions designed to prevent and manage violent and aggressive behaviour by mental health service users in health and community care settings, for staff, and for staff and service users combined, produce benefits that outweigh possible harms when compared to an alternative management strategy?</p> <p>Search construction: [population search terms AND training terms terms AND SR/RCT/Cohort study design terms]</p>	SR, RCT, Cohort	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
3.5	<p>Do de-escalation methods used to prevent imminent violent and aggressive behaviour by mental health service users in health and community care settings produce benefits that outweigh possible harms when compared to an alternative</p>	SR, RCT, Cohort	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014

	management strategy? Search construction: [population search terms AND de-escalation terms AND SR/RCT/Cohort study design terms]			
Immediately-pre-event				
3.2	Do observation techniques used to pre-empt or prevent imminent violent and aggressive behaviour by mental health service users in an inpatient setting produce benefits that outweigh possible harms when compared to an alternative management strategy? Search construction: [population search terms observation terms AND SR/RCT/Cohort study design terms]	SR, RCT, Cohort	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
3.3	Do personal and institutional alarms, CCTV and communication devices used to alert staff to imminent violent and aggressive behaviour by mental health service users in health and community care settings produce benefits that outweigh possible harms when compared to an alternative management strategy? Search construction: [population search terms AND devices used to alert staff terms AND SR/RCT/Cohort study design terms]	SR, RCT, Cohort	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
3.4	What principles of practice are necessary to ensure the effectiveness of personal and institutional alarms, CCTV and communication devices in reducing violent and aggressive behaviour by mental health service users in health and community care settings when compared to an alternative management strategy?	SR, RCT, Cohort	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014

	Search construction: [population search terms AND devices used to alert staff terms AND SR/RCT/Cohort study design terms]			
3.6	Does PRN (prorenata) medication used to prevent imminent violent and aggressive behaviour by mental health service users in health and community care settings produce benefits that outweigh possible harms when compared to an alternative management strategy? Search construction: [population search terms AND PRN terms AND SR/RCT/Cohort study design terms]	SR, RCT, Cohort	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
During event				
4.2	Does the use of personal and institutional alarms, CCTV and communication devices for the short-term management of violent and aggressive behaviour by mental health service users in health and community care settings produce benefits that outweigh possible harms when compared to an alternative management strategy? Search construction: [population search terms AND devices for the management of violence AND SR/RCT/Cohort study design terms]	SR, RCT, Cohort	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
4.13	What are the most effective and safe training programmes for the short-term management of violent and aggressive behaviour by mental health service users in health and community care settings? Search construction: [population search terms AND staff training terms AND SR/RCT/Cohort study design terms]	SR, RCT, Cohort	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014

Physical restraint/seclusion				
Review question and search construction	Study design limit	Databases searched	Dates searched	
During event				
4.3	Does seclusion used for the short-term management of violent and aggressive behaviour by mental health service users in health and community care settings produce benefits that outweigh possible harms when compared to an alternative management strategy? Search construction: [population search terms AND seclusion terms AND SR/RCT/Cohort study design terms]	SR, RCT, Cohort	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
4.5	Do physical restraint techniques (including, manual and mechanical restraint) used by staff for the short-term management of violent and aggressive behaviour by mental health service users in health and community care settings produce benefits that outweigh possible harms when compared to an alternative management strategy? Search construction: [population search terms AND physical restraint terms AND SR/RCT/Cohort study design terms]	SR, RCT, Cohort	CINAHL, Embase, Medline, PreMedline, PsycINFO	Database inception to 04.08.2014
4.6	If physical restraint techniques (including, manual and mechanical restraint) are used by staff for the short-term management of violent and aggressive behaviour by mental health service users in health and community care settings, how should use be modified if, for example, the service user is: <ul style="list-style-type: none"> • intoxicated • a heavy drinker 	SR, RCT, Cohort	CINAHL, Embase, Medline, PreMedline, PsycINFO	Database inception to 04.08.2014

<ul style="list-style-type: none"> seriously medically ill has physical disabilities or injuries or is physically frail pregnant obese. <p>Search construction: [population search terms AND physical restraint terms AND SR/RCT/Cohort study design terms]</p>			
---	--	--	--

Non-pharmacological management strategies				
Review question and search construction		Study design limit	Databases searched	Dates searched
During event				
4.1	<p>Do modifications to the environment (both physical and social) of health and community care settings used to reduce the level of violent and aggressive behaviour by service users with mental health conditions produce benefits that outweigh possible harms when compared to an alternative management strategy?</p> <p>Search construction: [population search terms AND environment terms AND SR/RCT/Cohort study design terms]</p>	SR, RCT, Cohort	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
4.4	<p>Do de-escalation methods used for the short-term management of violent and aggressive behaviour by mental health service users in health and community care settings produce benefits that outweigh possible harms when compared to an alternative management strategy?</p> <p>Search construction: [population search terms AND de-escalation terms AND SR/RCT/Cohort study design terms]</p>	SR, RCT, Cohort	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014

4.9	What factors should influence the decision to transfer a mental health service user with violent and aggressive behaviour to a more secure environment? Search construction: [population search terms AND patient transfer terms AND SR/RCT/observational study design terms]	SR, RCT, Observational	CINAHL, Cochrane, Embase, Medline, PreMedline, PsycINFO	Database inception to 04.08.2014
4.10	What is the best management strategy for the transfer of mental health service users to or between places of safety? Search construction: [population search terms AND patient transfer terms AND SR/RCT/observational study design terms]	SR, RCT, Observational	CINAHL, Cochrane, Embase, Medline, PreMedline, PsycINFO	Database inception to 04.08.2014

Pharmacological management strategies				
Review question and search construction		Study design limit	Databases searched	Dates searched
During event				
4.7	Do brief or fast acting pharmacological interventions used for the short-term management of violent and aggressive behaviour by mental health service users in health and community care settings produce benefits that outweigh possible harms when compared to an alternative management strategy? Search construction: [population search terms AND brief/fast acting pharmacological terms AND SR/RCT/Cohort study design terms]	SR, RCT, Cohort	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014
4.8	If brief or fast acting pharmacological interventions are used in the short-term management of violent and aggressive behaviour by mental health service users in health and community care settings, how should use be modified if, for	SR, RCT, Cohort	CINAHL, Embase, Medline, PreMedline, PsycINFO	2003 to 04.08.2014

	<p>example, the service user is: undergoing withdrawal</p> <ul style="list-style-type: none"> • intoxicated • a heavy drinker • seriously medically ill • has physical disabilities or injuries or is physically frail • pregnant • obese. <p>Search construction: [population search terms AND brief/fast acting pharmacological terms AND SR/RCT/Cohort study design terms]</p>			
--	---	--	--	--

Substance misuse			
Review question and search construction	Study design limit	Databases searched	Dates searched
Pre-event			
2.11	What is the most appropriate method of recognition and management of substance misuse in mental health service users with violent and aggressive behaviour in health and community care settings?	<i>No search – integrated findings from published NICE guidance.</i>	

Mental Health Act			
Review question and search construction	Study design limit	Databases searched	Dates searched
Pre-event			

2.12	Does being subject to the Mental Health Act alter the risk of violent and aggressive behaviour by mental health service users in health and community care settings?	SR, RCT, Cohort	CINAHL, Cochrane, Embase, Medline, PreMedline, PsycINFO	Database inception to 04.08.2014
2.12.1	If so, is the effect of detention proportional in relation to the factors that led to its implementation? Search construction: [population search terms AND Mental Health Act terms AND SR/RCT/Cohort study design terms]			

Advance directives				
Review question and search construction		Study design limit	Databases searched	Dates searched
Pre-event				
2.9	What role should advance directives play in the prevention of violence and aggression by mental health service users in health and community care settings? Search construction: [population search terms AND advance directive terms AND SR/RCT/Cohort study design terms]	SR, RCT, Cohort	CINAHL, Cochrane, Embase, Medline, PreMedline, PsycINFO	Database inception to 04.08.2014
Immediately pre-event				
3.1	What role should advance directives play in the management of imminent violence and aggression by mental health service users in health and community care settings? Search construction: [population search terms AND advance directive terms AND SR/RCT/Cohort study design terms]	SR, RCT, Cohort	CINAHL, Cochrane, Embase, Medline, PreMedline, PsycINFO	Database inception to 04.08.2014

Interface between health and police				
Review question and search construction		Study design limit	Databases searched	Dates searched
During event				
4.11	<p>What is the best management strategy when the police are called to support mental health staff manage violent and aggressive behaviour by mental health service users in health and community care settings?</p> <p>Search construction: [population search terms AND police terms AND SR/RCT/Cohort study design terms]</p>	SR, RCT, Cohort	CINAHL, Cochrane, Embase, Medline, PreMedline, PsycINFO	Database inception to 04.08.2014
4.12	<p>What is the best management strategy when mental health staff are required to call the police to take someone into custody because of violent and aggressive behaviour in health and community care settings?</p> <p>Search construction: [population search terms AND police terms AND SR/RCT/Cohort study design terms]</p>	SR, RCT, Cohort	CINAHL, Cochrane, Embase, Medline, PreMedline, PsycINFO	Database inception to 04.08.2014

Post-incident management				
Review question and search construction		Study design limit	Databases searched	Dates searched
Post-event				
5.1	<p>After violent and aggressive behaviour by mental health service users in health and community care settings, what post-incident management should occur for the service user(s) involved?</p>	RCT, Observational	CINAHL, Cochrane, Embase, Medline, PreMedline, PsycINFO	Database inception to 04.08.2014

	Search construction: [population search terms AND post-incident management terms AND SR/RCT/observational study design terms]			
5.2	<p>After violent and aggressive behaviour by mental health service users in health and community care settings, what post-incident management should occur for the staff involved?</p> <p>Search construction: [population search terms AND post-incident management terms AND SR/RCT/observational study design terms]</p>	RCT, Observational	CINAHL, Cochrane, Embase, Medline, PreMedline, PsycINFO	Database inception to 04.08.2014
5.3	<p>After violent and aggressive behaviour by mental health service users in health and community care settings, what post-incident management should occur for any witnesses involved?</p> <p>Search construction: [population search terms AND post-incident management terms AND SR/RCT/observational study design terms]</p>	RCT, Observational	CINAHL, Cochrane, Embase, Medline, PreMedline, PsycINFO	Database inception to 04.08.2014
