NICE guidelines

Equality impact assessment

Renal Replacement Therapy

The impact on equality has been assessed during guidance development according to the principles of the NICE equality policy.

4.0 Final guideline (to be completed by the Developer before GE consideration of final guideline)

4.1 Have any additional potential equality issues been raised during the consultation, and, if so, how has the Committee addressed them?

Draft recommendation referred to a specific raised BMI for listing for transplantation. Stakeholders commented that a raised BMI should not be the sole reason to stop someone being listed for transplantation. The recommendation has been revised to reflect the stakeholder comments

4.2 If the recommendations have changed after consultation, are there any recommendations that make it more difficult in practice for a specific group to access services compared with other groups? If so, what are the barriers to, or difficulties with, access for the specific group?

No

4.3 If the recommendations have changed after consultation, is there potential for the recommendations to have an adverse impact on people with disabilities because of something that is a consequence of the disability?
