**1. Welcome and objectives for the meeting**

The Chair welcomed the committee and technical team to the twentieth meeting on intrapartum care for women with medical conditions and their babies. The Committee members and attendees introduced themselves.

The Chair informed the committee that no apologies had been received.

The Chair outlined the objectives of the meeting, which included the following:

- reviewing stakeholder comments and draft revisions to the guideline and responses to comments
- meeting jointly with the committee for the obstetric stream to review comments related to women-centred language.

**2. Confirmation of matter under discussion, and declarations of interest**

The Chair confirmed that for the purpose of managing conflicts of interest the matter under discussion was intrapartum care for women with medical conditions and their babies. The Chair asked everyone to verbally declare any interests that had arisen since the last meeting.

The Chair and a senior member of the Developer's team noted that the new interests declared did not prevent the attendees from participating fully in the meeting. Following previous declarations of interest, DW withdrew from the meeting on discussions around recommendations for antenatal care planning involving a multidisciplinary team. This part of the meeting was chaired by RW.

### 3. Minutes of last meeting

The Chair asked the committee if it wanted any changes made to the minutes of the last meeting. The committee agreed that the draft minutes were a true and accurate account of the meeting.

#### **4. Presentations**

The Chair introduced KA who presented the stakeholder comments on the draft guideline for consultation.

#### **5. Questions and discussion**

The committee reviewed the recommendations and justifications for all the review questions considered in the guideline and made amendments to take account of the stakeholder comments.

The Chairs of the committees for the existing medical conditions and obstetric complications work streams for this guideline led a joint discussion involving both committees in relation to stakeholder comments on the topic of women-centred language. The committees jointly agreed principles for revisions to be made to recommendations in the light of the comments.

For a list of attendees from the committee for the existing obstetric complications work stream see the separate minutes of that committee.

#### **6. Any other business**

There was no other business.
