1. Welcome and objectives for the meeting

The Chair welcomed the committee members and attendees to the 4th meeting on multiple obstetric guidelines update. The committee members and attendees introduced themselves.

The Chair informed the committee that apologies had been received from Christine Harding.

The Chair outlined the objectives of the meeting, which included: developing protocols, reviewing evidence and making recommendations, health economic update and discussing NICE edits to draft recommendations.

2. Confirmation of matter under discussion, and declarations of interest

The Chair confirmed that, for the purpose of managing conflicts of interest, the matter under discussion was were multiple obstetric topics on hypertension in pregnancy, ectopic pregnancy, caesarean section, induction of labour and preterm labour and birth.

The Chair asked everyone to verbally declare any interests that have arisen since the last meeting. New interests were declared and noted below.

Name	Role with NICE	Type of interest	Description of interest	Relevant dates			Comments
				Interest arose	Interest declared	Interest ceased

Sarah Findlay	Co-opted Member (only attending hypertension in pregnancy meetings)	Direct, non-financial	James Lind Alliance priority seating partnership, hypertension in pregnancy	June 2018	05/09/2018		

The Chair and Guideline Lead noted that the interests declared in the registry did not prevent the attendees from fully participating in the meeting.

3. Minutes of last meeting

The Chair asked the committee to confirm the minutes of the last meeting, and the committee confirmed that no changes were required.

4. Morning presentations

Katie Webster presented the protocols for two review questions:

- CS1: What are the risks and benefits of C-section compared with planned vaginal birth at term at improving neonatal and maternal outcomes?
- CS4: What is the efficacy of single-layer closure of the uterus as compared with two layer closure at Caesarean section?

Katie also presented some questions to the Committee arising from the development of protocols for questions:

- IoL2: What are the benefits and harms associated with pharmacological methods of induction of labour in women who request labour induction?
- IoL3: What are the benefits and harms associated with mechanical methods of induction of labour in women who request labour induction?

Eva Gonzalez-Viana presented the evidence review for question HiP6: What advice should be given to women at discharge from maternity care to reduce their risk of developing recurrent hypertension during a subsequent pregnancy, and their risk of longer term cardiovascular disease?

5. Afternoon presentations

Matthew Prettyjohns presented a health economic update for review question HiP3: Which tests or clinical prediction models are accurate in identifying or predicting women at risk of severe complications from pre-eclampsia?

Hilary Eadon presented the previous recommendations that had been edited by the NICE Editor for review questions:

- HiP2: What is the best strategy (including frequency) for monitoring gestational hypertension in women?
- HiP3: Which tests or clinical prediction models are accurate in identifying or predicting women at risk of severe complications from pre-eclampsia?

6. Questions and discussions

The committee discussed and made some amendments to protocols CS1 and CS4.

The protocol for CS4 was signed off by the Committee.

The protocol for CSQ3 was not finalised and will be discussed further with the committee.

The committee discussed the evidence presented for HiP6 and made recommendations.

The committee discussed edits to draft recommendations made by the NICE Editor for HiP2 and HiP3, and agreed changes to the recommendations.

The committee also discussed revisions to Table 1 and Table 2 from the 2010 NICE guideline and agreed to changes to the tables.

7. Any other business

The Chair reminded the committee of the date for the next meeting.

Date of next meeting: 1st November 2018

Location of next meeting: RCOG, London
