We've created a series of visual summaries to explain assessment, treatment and other aspects of care for various conditions relating to hypertension in pregnancy:

- [planning care for women at moderate and high risk of pre-eclampsia](#)
- [assessment of proteinuria and care plans](#)
- [chronic hypertension: pre-pregnancy advice](#)
- [chronic hypertension: antenatal care](#)
- [gestational hypertension: antenatal care](#)
- [intrapartum care and place of care](#)
- [criteria for choice of critical care level \(hypertension, pre-eclampsia and eclampsia\)](#)
- [follow-up care and postnatal review](#)
- [antihypertensive treatment during the postnatal period](#)
- [risk of long-term cardiovascular disease](#)
- [pre-eclampsia: antenatal care](#)
- [risk of recurrence of hypertensive disorders of pregnancy](#)
