		1.7.21.		
Ruth Price	Advanced Clinical Pharmacist for Cardiovascular Services, Leeds Teaching Hospitals NHS Trust	I run a post Myocardial Infarction (MI) medicines optimisation clinic to review patients cardiovascular risk factors and optimise medicines post MI. This was set up by senior colleagues as a Joint Working Initiative between Leeds Teaching Hospital NHS Trust and Astra Zeneca. Initially there was funding from industry, but I did not receive any of this. It was set up in approximately 2014, I started in phase 2 of the project in 2017 and it is now part of my NHS job plan. I presented our work to Astra Zeneca in 2019 and I am writing a paper about this clinic for journal publication as part of the Joint Working initiative, 1.7.21.	Direct non-financial	Specific Declare and remain

The Chair and a senior member of the Developer's team noted that the interests declared did not prevent the attendees from fully participating in the meeting. Therefore no action was required.
