## University of Leeds/GenoMEL

The University of Leeds/GenoMEL have produced an [advice leaflet](#) for melanoma health care teams on vitamin D and melanoma that supports recommendations on measuring and managing suboptimal levels of vitamin D in the NICE guideline on [assessment and management of melanoma](#).

**This resource should not be used for people aged 16 or under.**

Endorsed tools are complementary information from sources outside of NICE. This tool has been developed by The University of Leeds/GenoMEL and is not maintained by NICE. NICE has not made any judgement about the quality and usability of the resource. In the event of any issues or errors, please contact [The University of Leeds/GenoMEL](#).
