NICE guidelines

Equality impact assessment

Colorectal Cancer (update)

The impact on equality has been assessed during guidance development according to the principles of the NICE equality policy.

2.0 Checking for updates and scope: after consultation (to be completed by the Developer and submitted with the revised scope)

2.1 Have any potential equality issues been identified during consultation, and, if so, what are they?

There were no equality issues identified during consultation

2.2 Have any changes to the scope been made as a result of consultation to highlight potential equality issues?

No changes have been made to the scope.

The guideline will focus on adults but particular consideration may be given to recommendations relating to older people with long term conditions/co-morbidities in some areas of the guideline.

1.0.7 DOC EIA

2.3 Is the primary focus of the guideline a population with a specific disability-related communication need?

If so, is an alternative version of the 'information for the public' recommended?

If so, which alternative version is recommended?

The alternative versions available are:

- large font or audio versions for a population with sight loss
- British Sign Language videos for a population deaf from birth
- 'Easy read' versions for people with learning disabilities or cognitive impairment.

No, the primary focus of the guideline is not a population with a specific disability-related communication need.
