1. Welcome and objectives for the meeting

The Chair welcomed the Committee members and attendees to the 6th meeting on acute coronary syndromes (first day of a two day meeting).

The Chair informed the Committee that apologies had been received. These are noted above.

The Chair outlined the objectives of the meeting, which included:

- Review of the evidence for bare metal and drug-eluting stents
- Discussion of methods for methods for the dual antiplatelet therapy model

Introductions

2. Confirmation of matter under discussion, and declarations of interest

The Chair confirmed that, for the purpose of managing conflicts of interest, the matter under discussion was reviewing the evidence for drug-eluting and bare metal stents.

The Chair asked everyone to verbally declare any interests that have arisen since the last meeting.

Name	Job title, organisation	Declarations of Interest, date declared	Type of interest	Decision taken
Simon Corbett	Consultant Cardiologist, University Hospital Southampton NHS Foundation Trust	Local Investigator (UHSFT) on RAPID-NSTEMI trial. This is a randomised controlled trial of immediate vs delayed angiography in non-ST-elevation	Direct non-financial	Declare and participate

		myocardial infarction patients. The trial is funded by the British Heart Foundation. My role in this trial is to recruit patients. Likely to be ongoing beyond end of the Guideline. 26 March 2019

The Chair and a senior member of the Developer's team noted that the interests declared did not prevent the attendees from fully participating in the meeting.

3. Minutes of last meeting

The Chair asked the Committee if it wanted any changes made to the minutes of the last meeting. The Committee agreed that the minutes were a true and accurate account of the meeting.

The Chair confirmed that all matters arising had been completed or were in hand.

4. Guideline development timeline

Bernard Higgins, Clinical Director, NGC, updated the committee on the project timeline.

5. Evidence review: stents

The Chair introduced Saoussen Ftouh, Senior Research Fellow, NGC, who gave a presentation on the evidence for clinical effectiveness of bare metal and drug-eluting stents.

The Chair introduced Annabelle Davies, Health Economist, NGC, who gave a presentation on the evidence for cost effectiveness of bare metal and drug-eluting stents.

The Committee then discussed the evidence and drafted recommendations.

6. Presentation: health economic modelling methods
Annabelle Davies, NGC Health Economist, gave a presentation on the methods for the dual antiplatelet therapy model. Methodological queries were discussed with the committee.
7. Any other business
