1. Welcome and objectives for the meeting

The Chair welcomed the committee members and attendees to the 10th committee meeting on Kidney Injury & Disease. The Chair welcomed to the meeting; committee members, and NICE attendees.

The Chair introduced VM Project Manager, who provided a recap on zoom functions. The Chair thanked VM for her presentation.

The Chair informed the Committee that apologies had been received. These are noted above.

The Chair outlined the objectives of the meeting, which included:

- Review and discussion of the evidence what is the accuracy of albumin:creatinine ratio versus protein:creatinine ratio measurements to quantify proteinuria in children and young people with CKD
- Review the question; in adults, children and young people from black, Asian and other minority ethnic groups with CKD, what is the biological and analytical variability in eGFR testing and what factors (including fasting) affect it
- Review the question; in children and young people with CKD, what is the accuracy of reagent strips for detecting protein and blood in urine?

The Chair asked all committee members to verbally declare any interests that have arisen since the last meeting. The Chair and senior members of the Developer team noted that the interests previously declared, and any new interests did not prevent the attendees from fully participating in the meeting. No new interests were declared
