1. Welcome and objectives for the meeting

PS welcomed the Committee members and attendees to the eighteenth meeting of the Heart Valve Disease guideline. The Committee members and attendees

introduced themselves.

PS outlined the objectives of the meeting.

2. Confirmation of matter under discussion, and declarations of interest

The DOI register was made available to PS. PS reviewed the DOI register and deemed that two committee members had DOIs that were in conflict with the agenda topics under discussion at this meeting:

- MG for stress echo, monitoring, and indications for interventions for people with asymptomatic aortic stenosis.
- DP for predictive accuracy of stress testing and stress echocardiography for severe aortic stenosis.

The Chair managed participation and discussion in line with the DOI policy. The Chair also asked everyone to verbally declare any interests that have arisen since the last meeting. No new interests were received for this committee meeting.

3. Discussion

3.1 AM led the discussions with the committee on results of the revised health economic model for TAVI.

4. Any other business

None.
