

Economic plan

This plan identifies the areas prioritised for economic modelling. The final analysis may differ from those described below. The rationale for any differences will be explained in the guideline.

1 Guideline

Integrated health and social care for people experiencing homelessness

2 List of modelling questions

Review questions by scope area	What approaches are effective in improving access to and/or engagement with health and social care for people who experience homelessness? AND What joined up approaches are effective in responding to the health, social care and housing needs of people experiencing homelessness?
Population	Adult people experiencing homelessness
Interventions and comparators considered for inclusion	<ul style="list-style-type: none"> • A strategy using lower case holding per practitioner • A strategy using standard care case holding per practitioner
Perspective	NHS and Personal Social Services (PSS); Public sector; and Local Authority or Voluntary Sector and Community
Outcomes	Quality-adjusted life years; cost-offsets
Type of analysis	From NHS and PSS perspective a threshold analysis; from other perspectives, a cost-offset/break-even analysis
Modelling software	Excel
Issues to note
