

Economic plan

This plan identifies the areas prioritised for economic modelling. The final analysis may differ from those described below. The rationale for any differences will be explained in the guideline.

1 Guideline

Adults with complex needs: social work interventions including assessment, care management and support

2 List of modelling questions

| | |
|--|--|
| Review questions by scope area | <p><i>C. What is the effectiveness of case management and care planning approaches in social work (in relation to changing needs, wishes and capabilities)?</i></p> <p><i>This review question is also likely to cover other topics in particular topic D (What is the effectiveness of case management and care planning in the event of a crisis or unplanned escalation of need? and topic G (What is the effectiveness of social and community support approaches [including peer support] in promoting social inclusion of adults with complex needs?)</i></p> |
| Population | People aged 18 and over with complex needs which rely on a range of health and social care services. |
| Interventions and comparators considered for inclusion | <p><i>Intervention:</i> Connecting People Intervention Family Group Conferencing</p> <p><i>Comparator:</i> Usual practice</p> |
| Perspective | UK NHS + PSS |
| Outcomes | Costs, cost savings, QALYs. |
| Type of analysis | Cost Utility |
| Issues to note | Additional costing analyses are presented in addition to the economic modelling. |
