Day 1 – 9th June 2022							
1. Welcome and objectives for the meeting							
<p>The Chair welcomed the committee members and attendees to day 1 of the 29th meeting of the multiple obstetric guidelines update.</p> <p>The Chair informed the committee that apologies had been received as noted above.</p> <p>The Chair outlined the objectives of the meeting, which included reviewing guideline evidence, reviewing and deciding the action on the query regarding the OASI care bundle, making editorial changes to existing recommendations and reviewing current recommendations.</p>							
2. Confirmation of matter under discussion, and declarations of interest							
<p>The Chair confirmed that, for the purpose of managing conflicts of interest, the matters under discussion were multiple obstetric topics including Intrapartum care (IPC).</p> <p>The Chair asked everyone to verbally declare any interests that have risen since the last meeting. New interests were declared and noted below.</p>							
Name	Role	Type of interest	Description of interest	Relevant dates			Comments
				Interest arose	Interest declared	Interest ceased	
Philip Barclay	Committee Member	Direct, personal and professional	Elected as a member of the Board and Council of the Association of Anaesthetists	19/05/2022	09/06/2022	Ongoing	Declare and participate Agreed by: GL June 2022 Rationale: Not specific to guideline

Samantha Russell	Lay Member	Direct, financial	Patient and public contributor for the NIHR on a research project "Valuing Care Guidance Study: National Involvement Group: a study which seeks to understand how adult social care guidance published by the National Institute for Health and Care Excellence (NICE) is implemented locally, what the costs of implementation are and what value it can generate (including outcomes for people with social care needs and carers)"	26/05/2022	18/05/2022	Ongoing	Declare and participate Agreed by: GL May 2022 Rationale: Not specific to guideline.
Samantha Russell	Lay Member	Direct, financial	Lay member contribution to ARC West Midlands News Blog- Solution to a Devastating Injury Related to Childbirth? Discussion of research	May 2022	08/06/2022	May 2022	Declare and participate Agreed by: GL May 2022 Rationale: Perineal care is within the scope of the guideline update, but the article is a blog suggesting more research is needed in this area and does not express views about the correct methods for perineal care, so is not a

							conflict with the guideline and is not likely to impact on the development of recommendations.
3. Minutes of last meeting							
The Chair asked the committee to confirm the minutes of the last meeting, and the committee confirmed that no changes were required.							
4. Morning presentations							
<p>The Chair introduced Agnesa Mehmeti, Systematic Reviewer, and Paul Jacklin, Senior Health Economist, who presented the evidence for IPC7.5: ‘What is the effectiveness of prophylactic antibiotics for preventing postnatal infections in assisted vaginal birth?’</p> <p>Clifford Middleton, Guideline Commissioning Manager, led a discussion on the OASI Care bundle.</p> <p>Rebecca Blackburn, Assistant Systematic Reviewer, presented the evidence for IPC7.4: ‘What is the effectiveness of perineal care in the second stage of labour (for example, massage, hands-on support, and warm compresses) for reducing perineal trauma and tears?’</p>							
5. Afternoon presentations							
<p>Hilary Eadon, Guideline Lead, presented editorial changes to the recommendations on assisted birth to clarify when analgesia is required, and when anaesthesia is required.</p> <p>Hilary Eadon, Guideline Lead, led the committee through a review of IPC recommendations.</p>							
6. Questions and discussions							
<p>The committee discussed the evidence on the effectiveness of prophylactic antibiotics for preventing postnatal infections in assisted vaginal birth, and drafted recommendations.</p> <p>The committee discussed the evidence on the effectiveness of perineal care in the second stage of labour for reducing perineal trauma and tears, and made changes to existing recommendations as well as drafting new recommendations.</p> <p>The committee agreed editorial changes regarding when analgesia is required and when anaesthesia is required.</p> <p>The committee reviewed and made relevant changes to IPC recommendations.</p>							

7. Any other business

The meeting was closed at 17:00

Day 2 – 10th June 2022

8. Welcome and objectives for the meeting

The Chair welcomed the committee members and attendees to the 2nd day of the 29th meeting of the multiple obstetric guidelines update.

The Chair informed the committee that apologies had been received as noted above.

The Chair outlined the objectives of the meeting, which included reviewing guideline evidence, making editorial changes to existing recommendations, reviewing the remifentanil health economic model and reviewing current recommendations.

9. Confirmation of matter under discussion, and declarations of interest

The Chair confirmed that, for the purpose of managing conflicts of interest, the matters under discussion were multiple obstetric topics including Intrapartum care (IPC).

No new interests were declared.

10. Morning presentations

The Chair introduced Agnesa Mehmeti, Systematic Reviewer who presented evidence for IPC7.3: ‘What are the benefits and risks of the different pushing techniques (immediate, spontaneous, delayed, directed) in the second stage of labour in women with and without regional analgesia?’

Hilary Eadon, Guideline Lead presented editorial changes to the current definitions for the duration of the second stage of labour and the definition of delay.

11. Afternoon presentations

Paul Jacklin, Senior Health Economist, presented the remifentanil health economic model to the committee.

Hilary Eadon, Guideline Lead, led the committee through a review of IPC recommendations.

12. Questions and discussions

The committee discussed the evidence on the benefits and risks of the different pushing techniques in the second stage of labour in women with and without regional analgesia, and drafted recommendations.

The committee agreed editorial changes regarding current definitions for the duration of the second stage of labour and the definition of delay.

The committee reviewed the remifentanil health economic model.

The committee reviewed and made relevant changes to IPC recommendations.

13. Any other business

The meeting was closed at 17:00.

Date of next meeting: 21st July 2022

Location of next meeting: Virtual via Microsoft Teams
