Apologies:	
Charlotte Huddy	Committee member
Chimwemwe Kalumbi	Committee member
Tim Reeves	NGA Information Scientist
Hayley Shaw	NGA Project Manager

1. Welcome and objectives for the meeting

The Chair welcomed the committee members and attendees to the 26th meeting of the multiple obstetric guidelines update.

The Chair informed the committee that apologies had been received as noted above.

The Chair outlined the objectives of the meeting, which included reviewing guideline evidence and editorial changes to existing recommendations.

2. Confirmation of matter under discussion, and declarations of interest

The Chair confirmed that, for the purpose of managing conflicts of interest, the matters under discussion were multiple obstetric topics including Intrapartum care (IPC).

The Chair asked everyone to verbally declare any interests that have risen since the last meeting. New interests were declared and noted below.

Name	Role	Type of interest	Description of interest	Relevant dates			Comments
				Interest arose	Interest declared	Interest ceased	
Aung Soe	Committee Member	Direct, personal and professional	Regional Neonatal Clinical Lead, SE, NHSE & I	01/01/2022	07/03/2022	Ongoing	Declare and participate Agreed by: GL March 2022 Rationale: Regional (not national) NHSEI role so not a conflict with the guideline.
Aung Soe	Committee Member	Direct, personal and professional	Co-author in BJOG paper "Immediate birth for women between 34 and 37 weeks of gestation with prolonged	09/03/2022	16/03/2022	09/03/2022	Declare and participate Agreed by: GL March 2022 Rationale: Not specific to guideline as relates to

			preterm prelabour rupture of membranes and detection of vaginal or urine group B streptococcus: an economic evaluation DOI: 10.1111/1471- 0528.17119				preterm birth.
3. Minutes of last meeting							
The Chair asked the committee to confirm the minutes of the last meeting, and the committee confirmed that no changes were required.							
4. Morning presentations							
The Chair introduced Claire Maynard, Systematic Reviewer, who presented the clinical evidence for IPC Q7.1: What is the most effective position for birth in women with an epidural in situ? and IPC Q7.2: What is the most effective position for birth in women without an epidural in situ?							
5. Afternoon presentations							
Hilary Eadon, Guideline Lead, presented editorial changes to the recommendations on the monitoring of women with regional analgesia, in light of updated guidelines from the Association of Anaesthetists and the Obstetric Anaesthetists' Association and on drinking water, use of intravenous fluids and monitoring of urine output and fluid balance during labour to reduce the risk of hyponatremia.							
6. Questions and discussions							
The committee discussed the evidence on the most effective position for birth in women with and without an epidural in situ, and drafted recommendations.							
The committee agreed editorial changes regarding the monitoring of women with regional analgesia and editorial changes regarding drinking water, use of intravenous fluids and monitoring of urine output and fluid balance during labour to reduce the risk of hyponatremia.							
7. Any other business							
There was no further business.							
The meeting was closed at 17:00.							

Date of next meeting: 31st March 2022

Location of next meeting: Virtual via Microsoft Teams
