

# Economic plan

This plan identifies the areas prioritised for economic modelling. The final analysis may differ from those described below. The rationale for any differences will be explained in the guideline.

## 1 Guideline

Motor Neurone Disease

## 2 List of modelling questions

<b>Review questions by scope area</b>	<b>What is the most clinically- and cost-effective approach for coordinating care and support across health and social care for people with motor neurone disease and their families and carers?</b>
Population	Individuals with a new diagnosis of motor neurone disease
Interventions and comparators considered for inclusion	Intervention: Multi-disciplinary care Comparator: Non centralised care ('general care')
Perspective	NHS PSS
Outcomes	Quality Adjusted Life Years
Type of analysis	CUA
Issues to note	Potential undervaluation of quality of life
