

Evidence reviews - September 2023

Evidence review

Published: 8 September 2023

www.nice.org.uk

The following documents contain the evidence that was used to develop the 2023 recommendations:

- [Clinical and cost-effectiveness of non-selective beta-blockers and endoscopic variceal band ligation for the primary prevention of bleeding in people with oesophageal varices due to cirrhosis](#)
- [Use of antibiotics to prevent spontaneous bacterial peritonitis](#)
- [Clinical and cost effectiveness of non-selective beta-blockers for the primary prevention of decompensation in people with compensated cirrhosis](#)

Other supporting evidence

- [Methods](#)

These documents preserve evidence reviews and committee discussions for areas of the guideline that were not updated in 2023.

- [Full guideline - July 2016](#)
- [Appendices A-H](#)
- [Appendices I-Q](#)
