

## NATIONAL INSTITUTE FOR HEALTH AND CLINICAL EXCELLENCE

### GUIDELINES EQUALITY IMPACT ASSESSMENT FORM SCOPING

As outlined in the guidelines manual NICE has a duty to take reasonable action to avoid unlawful discrimination and promote equality of opportunities. The purpose of this form is to document that equalities issues have been considered in reaching the final scope for a clinical guideline.

Taking into account **each** of the equality characteristics below the form needs:

- To confirm that equality issues have been considered at **every stage** of the scoping (from drafting the key clinical issues, stakeholder involvement and wider consultation to the final scope)
- Where groups are excluded from the scope, to comment on any likely implications for NICE's duties under equality legislation
- To highlight planned action relevant to equalities.

This form is completed by the National Collaborating Centre (NCC) Director and the Guideline Development Group (GDG) Chair **for each guideline** and submitted with the final scope for sign off by the Chair of the Guidelines Review Panel (GRP) and the lead from the Centre for Clinical Practice.

<b>EQUALITY CHARACTERISTICS</b>
<p><b>Sex/gender</b></p> <ul style="list-style-type: none"> <li>• Women</li> <li>• Men</li> </ul>
<p><b>Ethnicity</b></p> <ul style="list-style-type: none"> <li>• Asian or Asian British</li> <li>• Black or black British</li> <li>• People of mixed race</li> <li>• Irish</li> <li>• White British</li> <li>• Chinese</li> <li>• Other minority ethnic groups not listed</li> </ul>
<p><b>Disability</b></p> <ul style="list-style-type: none"> <li>• Sensory</li> <li>• Learning disability</li> <li>• Mental health</li> <li>• Cognitive</li> <li>• Mobility</li> <li>• Other impairment</li> </ul>
<p><b>Age<sup>1</sup></b></p> <ul style="list-style-type: none"> <li>• Older people</li> <li>• Children and young people</li> <li>• Young adults</li> </ul> <p><sup>1</sup> Definitions of age groups may vary according to policy or other context.</p>
<p><b>Sexual orientation &amp; gender identity</b></p> <ul style="list-style-type: none"> <li>• Lesbians</li> <li>• Gay men</li> <li>• Bisexual people</li> <li>• Transgender people</li> </ul>
<p><b>Religion and belief</b></p>
<p><b>Socio-economic status</b></p> <p>Depending on policy or other context, this may cover factors such as social exclusion and deprivation associated with geographical areas (e.g. the Spearhead Group of local authorities and PCTs, neighbourhood renewal fund areas etc) or inequalities or variations associated with other geographical distinctions (e.g. the North/South divide, urban versus rural).</p>
<p><b>Other categories<sup>2</sup></b></p> <ul style="list-style-type: none"> <li>• Gypsy travellers</li> <li>• Refugees and asylum seekers</li> <li>• Migrant workers</li> <li>• Looked after children</li> <li>• Homeless people</li> </ul> <p><sup>2</sup> This list is illustrative rather than comprehensive.</p>

# GUIDELINES EQUALITY IMPACT ASSESSMENT FORM: SCOPING

## Guideline title: **Multimorbidity**

### **1. Have relevant equality issues been identified during scoping?**

- Please state briefly any relevant issues identified and the plans to tackle them during development
- For example
  - if the effect of an intervention may vary by ethnic group, what plans are there to investigate this?
  - If a test is likely to be used to define eligibility for an intervention, how will the GDG consider whether all groups can complete the test?
- It is recognised that the care of people with dementia and cognitive impairments may be additionally challenging. The GDG will take account of this when reviewing evidence and formulating recommendations.
- It is recognised that the care of people from lower Socio Economic groups will be considered as they may have more difficulty accessing treatment/services because they often develop multimorbidity at a younger age, than the age group for whom services are available.

### **2. If there are exclusions listed in the scope (for example, populations, treatments or settings) are these justified?**

- Are the reasons legitimate? (they do not discriminate against a particular group)
- Is the exclusion proportionate or is there another approach?
- Children - multimorbidity in children presents distinct problems and it isn't possible to adequately address these in a single guideline that also addresses adult morbidity. People who only have multiple mental health problems and no physical health problems. The management of multiple mental health problems will typically be conducted/carried out in psychiatric services not by generalist physicians/GPs. NICE has a programme of mental health guidance which includes consideration of people with more than one mental health condition.

### **3. Have relevant bodies and stakeholders been consulted?**

- Have relevant bodies been consulted?
- Have comments from stakeholders that highlight potential for discrimination or promoting equality been considered in the final draft?
- A stakeholder workshop was held on July 8th
- Public consultation on the scope was carried out between 06 August – 10 September, 2014.
