## EQUALITY IMPACT ASSESSMENT

NATIONAL INSTITUTE FOR HEALTH AND CARE EXCELLENCE

### NICE guidelines

#### Equality impact assessment

#### **Pancreatic cancer: diagnosis and management in adults**

The impact on equality has been assessed during guidance development according to the principles of the NICE equality policy.

#### **1.0 Scope: before consultation (To be completed by the developer and submitted with the draft scope for consultation)**

1.1 Have any potential equality issues been identified during the development of the draft scope, before consultation, and, if so, what are they?
No potential equality issues were identified during the scoping workshop and development of the draft scope for this guideline.
1.2 What is the preliminary view on the extent to which these potential equality issues need addressing by the Committee? For example, if population groups, treatments or settings are excluded from the scope, are these exclusions justified – that is, are the reasons legitimate and the exclusion proportionate?
