

Expert paper 4: Choosing outcome measures for lifestyle weight management programmes for children

Dr Maria Bryant, Leeds Institute of Clinical Trials Research, University of Leeds

Title of study: Systematic review to identify and appraise existing outcome measures for use in the evaluation of childhood obesity treatment interventions (HTA Project 09/127/07)

[Note from NICE: The first part of the written presentation closely followed the protocol for the study. The full expert paper will replace the link to the protocol below after the study has been published as an NIHR HTA monograph.]

The protocol for the study can be viewed at the following link:
