

## **NICE public health guideline on ‘Vitamin D: increasing supplement use among at risk groups’ (PH56)**

### **Relevant ongoing NIHR research**

**November 2014**

The NICE public health guideline PH56 includes details of the evidence that supports the recommendations. It also identifies gaps in the evidence and makes recommendations for future research. Guideline users may be interested to know about research already underway which may be of relevance to the topic of the guidance.

Examples of research from the current portfolio of the National Institute for Health Research (NIHR) are listed in the table below. These are just a few of the NIHR research projects that are in progress, or at a pre-publication stage (at the time of publication of the NICE guideline).

Further NIHR research projects may also be of relevance to the guideline topic. The NIHR portfolio can be explored in detail by visiting [www.nihr.ac.uk](http://www.nihr.ac.uk) or by following the hyperlink to a specific NIHR programme, all of which have a public health research portfolio:

- [Efficacy and Mechanism Evaluation \(EME\) Programme](#)<sup>1</sup>
- [Health Services and Delivery Research \(HS&DR\) Programme](#)
- [Health Technology Assessment \(HTA\) Programme](#)
- [Invention for Innovation \(i4i\) Programme](#)
- [NIHR Fellowships](#)
- [Programme Grants for Applied Research \(PGfAR\) Programme](#)
- [Public Health Research \(PHR\) Programme](#)
- [Research for Patient Benefit \(RfPB\) Programme](#)
- [Systematic Reviews \(SR\) Programme](#)
- [School for Public Health Research \(SPHR\)](#)
- [School for Primary Care Research \(SPCR\)](#)
- [School for Social Care Research \(SSCR\)](#)
