### Quality Standard Consultation Comments – Response to Commissioners

May 2014 - June 2014

Stakeholder	Section	Comment	NICE response
NHS England	General	This should also include a statement to the effect that the existence of living children is not a factor that will preclude the provision of cryopreservation (similar to quality statement 6).	Thank you for your comment. This has been added to the equality and diversity considerations in statement 9: Cryopreservation.
Department of Health	General	I wish to confirm that the Department of Health has no substantive comments to make, regarding this consultation.	Thank you for your comment.
