Dear Ms.Miller,

Re: Interferon alfa and ribavirin for the treatment of mild chronic hepatitis C - part review of existing guidance no.75

In response to Dr.Longson's letter, my responses are as follows:

- i) Yes, I agree that all of the relevant evidence has been taken into account
- ii) Yes, I agree that the summaries of clinical and cost effectiveness are reasonable interpretations of the evidence and that the preliminary views on the resource impact and implications for the NHS are appropriate
- iii) Yes, I agree that the provisional recommendations of the Appraisal Committee are sound and constitute a suitable basis for the preparation of guidance to the NHS

Yours sincerely,

Professor Roger Williams  
Professor Roger Williams, CBE  
Director,
