Subject: FW: Interferon Alfa and ribavirin for the treatment of mild chronic hepatitis C Appraisal Consultation Document & Evaluation Report RCGP COMMENTS

Dear ms Miller

Please see RCGP comments below on the Interferon Alfa and ribavirin for the treatment of mild chronic hepatitis C Appraisal Consultation Document & Evaluation Report:

COMMENT:

Having read the hardcopy and the comments as well as reading again the consultation document, I strongly feel that the college should agree with NICE on extending treatment to patients with mild to moderate disease as I have already said prior to this. With regards to:

Question number 1 I think that all relevant evidence has been considered (to best of my knowledge)

Question Number 2: To the best of my current knowledge the summaries of clinical and cost effectiveness are reasonable including their interpretation.

Question Number 3: I think the recommendations are acceptable to be used for the preparation of Guidance to Nice.

I would like to thank Dr Carola Sander-Hess for taking the time to review the documents and comment on behalf of the RCGP.

Please could you email me on safe receipt of this.

Regards

Kate Addoh
