Subject: RE: Cinacalcet hydrochloride for the treatment of secondary hyperparathyroidism in patients with end-stage renal disease on maintenance dialysis therapy - RCN comments
Importance: High

Dear Alana

This is just to let you know that the feedback I have received from nurses working in this area of health suggest that there is no additional evidence to submit on behalf of the Royal College of Nursing to inform this health technology appraisal, other than what can be found through systematic reviews.

Thank you for the opportunity to submit evidence. The RCN looks forward to participating the next stage of the appraisal process.

Please acknowledge receipt.

Regards

Caroline
