Subject: RE: Soft tissue sarcoma - trabectedin - submission reminder

Importance: High

Dear Jeremy

Nurses working in this area of health have considered the invitation to submit professional statement on the use of trabectedin for the treatment of advanced metastatic soft tissue sarcoma. There is no further evidence to submit on behalf of the RCN at this stage.

The RCN looks forward to participating in the next phase of the appraisal of this health technology.

Thank you for the invitation. Please acknowledge receipt.

Regards
