

Dear Sir/Madam,

Please find below my comments as a patient carer representative for the Anaphylaxis Campaign, on the Appraisal Consultation Document (APD) for Pharmedgen for the treatment of venom allergy

My comments are that

- All of the relevant evidence has been taken into account.
- The summaries of clinical and cost effectiveness are reasonable interpretations of the evidence.
- The provisional recommendations are sound and are a suitable basis for guidance to the NHS?

Regards

Moira Austin
