Single technology appraisal (STA)

**Ipilimumab for previously treated advanced (unresectable or metastatic)  
malignant melanoma**

---

Royal College of Nursing

---

**Introduction**

The Royal College of Nursing (RCN) was invited to review the Appraisal Consultation Document (ACD) for Ipilimumab for previously treated advanced (unresectable or metastatic) malignant melanoma.

The Appraisal Consultation Document was sent to a network of nurses caring for people with melanoma to review on behalf of the RCN.

**Appraisal Consultation Document – RCN Response**

The Royal College of Nursing welcomes the opportunity to review this document. The RCN's response to the four questions on which comments were requested is set out below:

i) **Has the relevant evidence has been taken into account?**

There are no comments to add on the evidence considered for this appraisal.

ii) **Are the summaries of clinical and cost effectiveness reasonable interpretations of the evidence, and are the preliminary views on the resource impact and implications for the NHS appropriate?**

We would ask that the summaries of the clinical and cost effectiveness of this appraisal should be aligned to the clinical pathway followed by people with melanoma. The preliminary views on resource impact and implications should be in line with established standard clinical practice.

- iii) **Are the provisional recommendations of the Appraisal Committee sound and do they constitute a suitable basis for the preparation of guidance to the NHS?**

Nurses working in this area of health have reviewed the recommendations of the Appraisal Committee and do not have any other comments to add.

The RCN would welcome guidance to the NHS on the use of this health technology.

- iv) **Are there any aspects of the recommendations that need particular consideration to ensure we avoid unlawful discrimination against any group of people on the grounds of gender, race, disability, age, sexual orientation, religion or belief? Are there any equality related issues that need special consideration that are not covered in the ACD?**

We are not aware of any specific issue at this stage. However, it would be helpful to know if NICE will publish the equality analysis for this appraisal. We would also ask that any guidance issued should show that an analysis of equality impact has been considered and that the guidance demonstrates an understanding of issues relating to all the protected characteristics where appropriate.
