HEALTH TECHNOLOGY APPRAISAL PROGRAMME

Equality impact assessment – Guidance development

STA Dabrafenib for treating unresectable or metastatic BRAF V600 mutation-positive melanoma

The impact on equality has been assessed during this appraisal according to the principles of the NICE equality scheme.

Final Appraisal Determination

(when no ACD was issued)

- | |
|---|
| 1. Have the potential equality issues identified during the scoping process been addressed by the Committee, and, if so, how? |
|---|

No potential equality issues were identified during the scoping process.
--

- | |
|--|
| 2. Have any other potential equality issues been raised in the submissions, expert statements or academic report, and, if so, how has the Committee addressed these? |
|--|

No potential equality issues were identified in the submissions, expert statements or academic report.
--

- | |
|--|
| 3. Have any other potential equality issues been identified by the Committee, and, if so, how has the Committee addressed these? |
|--|

No other potential equality issues were identified by the Committee.
--

- | |
|--|
| 4. Do the recommendations make it more difficult in practice for a specific group to access the technology compared with other groups? |
|--|

If so, what are the barriers to, or difficulties with, access for the specific group?
No

5. Is there potential for the recommendations to have an adverse impact on people with disabilities because of something that is a consequence of the disability?
No

6. Are there any recommendations or explanations that the Committee could make to remove or alleviate barriers to, or difficulties with, access identified in questions 4 or 5, or otherwise fulfil NICE's obligations to promote equality?
No

7. Have the Committee's considerations of equality issues been described in the final appraisal determination, and, if so, where?
No equality issues relevant to the Committee's recommendations were raised.
