**Equality impact assessment – Scoping**

**STA Everolimus for the prevention of organ rejection in allogeneic liver transplantation**

The impact on equality has been assessed during this appraisal according to the principles of the NICE Equality scheme.

1. Have any potential equality issues been identified during the scoping process (draft scope consultation and scoping workshop discussion), and, if so, what are they?
---

No equality issues were raised during the original scoping process or during the written scope consultation in April 2014.
--

2. What is the preliminary view as to what extent these potential equality issues need addressing by the Committee?
---

Not applicable.
-----------------

3. Has any change to the draft scope been agreed to highlight potential equality issues?
--

None.
-------

4. Have any additional stakeholders related to potential equality issues been identified during the scoping process, and, if so, have changes to the matrix been made?
--

No equality issues were raised by the stakeholders involved in the scoping process.
